

Shape the future  
of financial  
technology. Join us.

We are in the process of extending our software platform DECIDE, using innovative modules for modeling/displaying the entire lifecycle of securities and stock exchange processes. For our Hamburg office, we are looking for a

## Quantitative Support Analyst (m/f/d)\*

### Your roles and responsibilities

- › Assist the departments of risk control and trading concerning the implementation and integration of PDV'S pricing and risk analytics software solution DECIDE-Risk.
- › Work through the support issues associated with all risk and pricing topics. Escalate to the financial engineers and development team when necessary
- › Provide direct second level support regarding risk and pricing topics
- › Assist the project team answering quantitative questions
- › Identify and assist troubleshooting concerning issues in DECIDE-Risk. Recreate customer environments where necessary to reproduce and analyse issues prior to escalation to the development team
- › Provide DECIDE-Risk presentation and training to clients
- › Documentation support concerning DECIDE-Risk implementation projects

### Your skills and competencies

- › Master's degree in Finance, Financial Engineering or related degree, plus minimum 2 years of experience regarding financial software applications

Experience should include the following but may be gained concurrently:

- › A broad understanding of risk management and business processes in financial institutions
- › Experience concerning the parametrization of a software system
- › Financial modelling experience
- › Experience in a client facing role
- › Willingness to face changing requirements
- › A good command of German (or: willingness to do the support in German, good command of the German language in 6 month)

### What we offer

- › Challenging, interesting and versatile tasks while working with state-of-the-art, innovative software and system technologies
- › Room for creativity and personal achievement
- › Excellent prospects for personal development and assumption of responsibility
- › Extensive support and introductory training provided by a highly motivated, professional team in a pleasant working atmosphere
- › Open, dialog-oriented corporate culture, fast decision routes
- › Flextime policy
- › An easily accessible work location in a prestigious Hamburg neighborhood

### Is this what you're after?

Then our team is your place to be! We're looking forward to receiving your application, including salary expectations and the earliest possible entry date. In case you have any questions, don't hesitate to contact us by phone or via e-mail.

### pdv Financial Software GmbH

We develop the future. Based on DECIDE, the modern end-to-end software platform for the capital market, we support banks, brokers and stock exchanges to successfully drive their digital transformation.

For over 25 years, we have brought innovative solutions for the financial industry to market, enabling our clients to keep ahead of the competition and to benefit today from technologies and applications which will set tomorrow's standards. Currently we are 70 highly motivated professionals and want to grow our team. Get aboard!
