

Shape the future  
of financial  
technology. Join us.

We attach great importance to the care and development of our prestigious customers in the banking and brokerage segment. For our Hamburg office, we are looking for experienced

## Business Process Analysts (m, f, d)\*

### Your roles and responsibilities

- › Assisting our customers in the advancement of their business processes and developing suitable software implementation concepts
- › Providing consulting to new customers throughout the software implementation process and support for the integration in existing system environments
- › Acting as the interface between our software developer team and our customers

### Your skills and competencies

- › (Basic) Experience in the financial markets and securities segment
- › Good grasp of complex facts and circumstances and ability to summarize them in a comprehensible way
- › Independent approach to working as well as motivation for teamwork
- › Communicational and organizational skills
- › User experience with Microsoft Office applications (Word, Excel, Power Point, etc.)
- › Proficiency in German and English

### What we offer

- › Extensive support and introductory training provided by a highly motivated, professional team
- › Working with state-of-the-art, innovative software and system technologies
- › Room for creativity and personal achievements
- › Permanent employment, attractive compensation models and comprehensive employee benefits
- › Various training and development opportunities (internal/external)
- › Flat hierarchies and clearly defined chains of command in an open, dialogue-oriented corporate culture
- › An easily-accessible work location in a prestigious Hamburg neighborhood

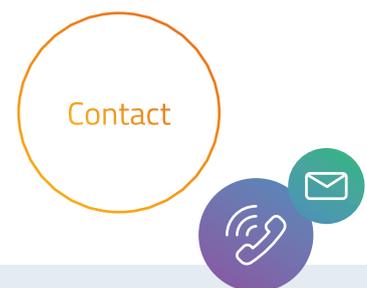

### Is this what you're after?

Then our team is your place to be! We're looking forward to receiving your application, including salary expectations and the earliest possible entry date. In case you have any questions, don't hesitate to contact us by phone or via e-mail.

### pdv Financial Software GmbH

We develop the future. Based on DECIDE, the modern end-to-end software platform for the capital market, we support banks, brokers and stock exchanges to successfully drive their digital transformation.

For over 25 years, we have brought innovative solutions for the financial industry to market, enabling our clients to keep ahead of the competition and to benefit today from technologies and applications which will set tomorrow's standards. Currently we are 70 highly motivated professionals and want to grow our team. Get aboard!
