

Shape the future
of financial
technology. Join us.

We continually upgrade our software platform DECIDE by adding innovative modules and functionality to cover the entire life cycle (End-to-End) in retail and institutional securities trading. For our Hamburg office, we are looking for highly qualified

C++ Software Developers (m, f, d)*

Your roles and responsibilities

- > Development of backend and/or frontend software using state-of-the-art C++ (C++ 17)
- > Development of complex SOA architectures and real time solutions including concurrent processing and sophisticated interfaces, with regard to high performance and throughput requirements
- > Design and development of self-dependent concepts and related solutions, including every step from evaluation and analysis to programming and automated testing
- > Providing our customers with expert advice and assistance on technical concepts and implementation of core and additional solutions

Your skills and competencies

- > Technical education or science degree
- > Experience in software development using object-oriented languages (preferably C++) and script languages
- > Independent approach to working as well as motivation for teamwork
- > Proficiency in English

What we offer

- > Extensive support and introductory training provided by a highly motivated, professional team
- > Working with state-of-the-art, innovative software and system technologies
- > Room for creativity and personal achievements
- > Permanent employment, attractive compensation models and comprehensive employee benefits
- > Various training and development opportunities (internal/external)
- > Flat hierarchies and clearly defined chains of command in an open, dialogue-oriented corporate culture
- > An easily-accessible work location in a prestigious Hamburg neighborhood

Is this what you're after?

Then our team is your place to be! We're looking forward to receiving your application, including salary expectations and the earliest possible entry date. In case you have any questions, don't hesitate to contact us by phone or via e-mail.

pdv Financial Software GmbH

We develop the future. Based on DECIDE, the modern end-to-end software platform for the capital market, we support banks, brokers and stock exchanges to successfully drive their digital transformation.

For over 25 years, we have brought innovative solutions for the financial industry to market, enabling our clients to keep ahead of the competition and to benefit today from technologies and applications which will set tomorrow's standards. Currently we are 70 highly motivated professionals and want to grow our team. Get aboard!
